jQuery - basic

JSON - basic

ReactJS - basic

Jest - basic

Cypress - basic

OTHER KNOWLEDGE, SKILLS AND INTERESTS

Two and a half year I worked for Telekom. Main database program I used was Siebel Oracle. While taking my web developer courses I found my calling in this area. Working as a train operator I learned how to handle stress in difficult situations. This work required big responsibility. I think of myself as a team player. I have learned that in my previous jobs and in my hobby (historical fencing and archery).

I am interested in computers and learning about new technologies.

DRIVING LICENCE

B category, driven 100000 km
